A black and white photograph of a microscope, likely a compound light microscope, shown from a slightly elevated side angle. The microscope has a dark, cylindrical body. At the top, there is a light source or condenser assembly with a white, cylindrical component. Below this is the objective lens assembly, which includes a rotating nosepiece and several objective lenses. The eyepiece is visible on the right side. At the bottom, there is a circular stage with a slide holder. The text "CLASS OF 1984" is printed in a serif font across the middle of the microscope's body.
